PRE+POST WEDDING CATERING

With so much to organise and a million decisions to make, remembering to eat before the wedding on the big day can often be overlooked. You don't really want to send your bridesmaid on the Maccas run, do you?!!

Add the final touches to your pre-wedding pampering with handcrafted drop-off or chef-attended breakfast and brunch catering, tailored exactly to your requirements. Enjoy a range of healthy foods while knowing the you and your bridal party will be ready for the day ahead. While it's easy to opt for Insta-ready grazing tables with no substance, our catering is professionally curated and dietician-approved to not only see you through to the reception, but also to calm those nervous tummies!

Our menus are popular for the morning-after family and friends gathering too.

Packages are freshly prepared on the day and delivered to your house, accommodation or wedding venue for both brides and grooms across most of Sydney (see delivery).

We also offer a set-up or fully-staffed service, please enquire.
